

FOR IMMEDIATE RELEASE:

IM JENSEN TO PROVIDE VOLVO CONSTRUCTION EQUIPMENT PRODUCTS AND SERVICES IN AFGHANISTAN

Copenhagen, Denmark – 22 June, 2010

IM Jensen, a subsidiary of Copenhagen Group A/S, has been selected by Volvo Construction Equipment as the official product sales, service and maintenance provider covering Afghanistan.

The company will deliver a broad range of Volvo Construction Equipment to the Afghan market including all loaders, graders, haulers and compactors. Warranty repairs and maintenance will be performed by IM Jensen's mobile field service team and Volvo certified spare parts and lubricants are available for delivery throughout Afghanistan.

IM Jensen management and all employees place quality, service and satisfaction as a high priority. Volvo Construction Equipment customers will be able to receive support from the company on any matter, anytime and anywhere in Afghanistan.

"It's a great honour and achievement for our company to be able to represent a global leader like Volvo Construction Equipment. Volvo's entry into the Afghan market is important for the future of Afghanistan and for development efforts taking place all over the country. We look forward to opportunities to work with the Afghan government, international organizations and businesses to expand Volvo's products and services", Jeppe Handwerk, President and CEO of Copenhagen Group A/S.

Erik Aase, Area Sales Manager for Volvo Construction Equipment, "IM Jensen's strong reputation and its strategic locations are factors we can capitalize upon to grow our business and we believe this partnership will make Volvo a strong brand in Afghanistan."

Volvo Construction Equipment

Volvo Construction Equipment offers a broad range of quality, safe, environmentally adapted products, efficient worldwide services and a range of solutions in financing, used equipment and leasing to meet the construction equipment needs of demanding customer all over the world.

Within the business area, a total of more than 150 different models of excavators, wheel loaders, motor graders and articulated haulers are produced at production plants located in Sweden, Germany, France, the United States, Brazil and Korea.

COPENHAGEN GROUP A/S

IM Jensen

IM Jensen is a subsidiary of Copenhagen Group A/S, a collection of companies that provide specialized support to international organizations and businesses engaged in conflict zones and developing regions. The company makes significant project investments in areas where the UN and NATO have set mandates to establish stable and civil societies.

Through its chain of service centres located in key areas of Afghanistan, IM Jensen provides a one-stop shop for sales, repairs and comprehensive solutions related to heavy construction equipment, generators and armoured vehicles. Current workshop locations are in Kabul, Kandahar Airfield, Camp Bastion and FOB Tarin Kowt. At each location, all work is planned and preformed by trained and certified mechanics.
